## Project Summary

From 200 East 62:

On a beautiful tree-lined street, where midtown and uptown meet, sits 200 E 62. From the activity and buzz that's synonymous with Midtown to the tranquility of Central Park, this unique neighborhood represents the best of everything New York City has to offer. Inside, the bustle of the city fades. Messana O'Rorke have interpreted O'Connor Capital Partners' vision and re-imagined the building as an open and refreshingly contemporary design.

From the stunning porte-cochère to the rooftop terrace 30 floors above, every element of the building has been designed with the residents in mind. No detail has been overlooked, each one contributing to the overall atmosphere of softly-spoken luxury and discreet sophistication.
